1 Standard rooms

The standard rooms at Disney's Sequoia Lodge are rustic in design & reflect the atmosphere of the entire resort. In keeping with the forest theme, elements from Disney's masterpiece Bambi can be found here in borders, bedspreads, pictures, etc. The air-conditioned rooms have 2 double beds. The standard rooms are located in the outer buildings of the Sequoia Lodge and are generally in a very quiet location.

2 Standard room in the main building

The rooms, which are also available with a view of the lake, are equipped in the same way as the standard rooms, but are closer to most of the central facilities. They are available with 2 double beds or 1 king-size bed.

3 Golden Forest Club rooms

The Golden Forest Club is the club floor of Disney's Sequoia Lodge. The rooms are equipped like the standard rooms in the main building, but also have a Nespresso machine. They also include breakfast, afternoon snacks and drinks in the Golden Forest Lounge from 12:00 to 22:00. Standard plus rooms also have a mini fridge in the room.

4 Golden Forest Club suites

1 Hunter's Grill

All-you-can-eat restaurant in a rustic national park setting, themed after hunting lodges in the mountains and forests of the USA. The theming is subtle, but the great lamps in particular are worth a look. The food on offer is mainly rustic dishes, with a large selection of meats.

2 Beaver Creek Tavern

The Beaver Creek Tavern now only serves as an alternative restaurant for the Hunter's Grill when it is very busy and for breakfast.

3 Redwood Bar & Lounge

A 50-foot-high fireplace stands in the Redwood Bar and Lounge at Disney's Sequoia Lodge, in front of which comfortable leather armchairs and cosy sofas invite you to relax after an eventful day at the theme parks.

DISNEY'S

★★★ SEQUOIA LODGE

**1 A place of tranquillity in the hustle and bustle of Disneyland Paris**

In the noisy hustle and bustle of the parks, Disney Village & also large parts of the other hotels, the grounds of Disney's Sequoia Lodge are a true haven of peace, especially its outdoor areas. For every one, not only guest of the hotel, a trip to the area characterised by redwood trees & waterways is recommended. Sometimes accompanied by the sounds of piano, but often only by the chirping of birds, you will immediately find peace here. Just relax!

2 The best time for breakfast

If your booking includes breakfast, then you should go for breakfast either at the very beginning or at the very end of the time frame - that's when the crowds are at their lowest.

3 Cosy winter evenings at Redwood Bar & Lounge

Especially on cold winter or wet autumn days, you should visit the bar of the lounge. The crackling fire in the huge fireplace warms you up perfectly.

4 Complimentary coffee

With the Magic Pass you can get four coffees (or other hot drinks) free of charge every day from the coffee machines in the hotel.
